

## Design #1 - Op Art Waves

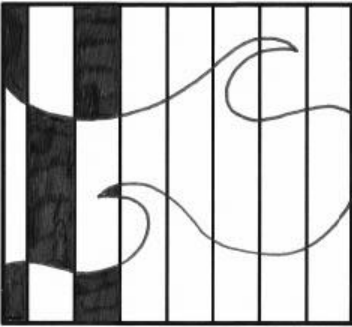

Draw vertical lines inside of your box. Use a ruler.

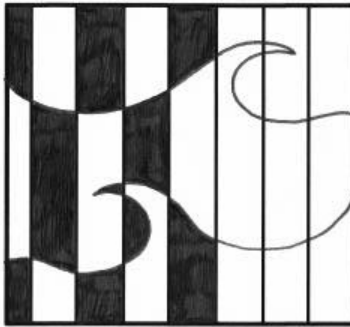

Draw a wave going across the top of the box.

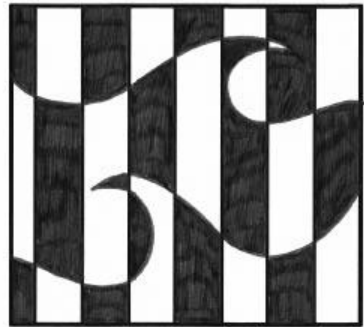

Draw another wave going across the bottom of the box.

Begin coloring. Remember that black sections should never be adjacent to each other, and white sections should never be adjacent to each other.

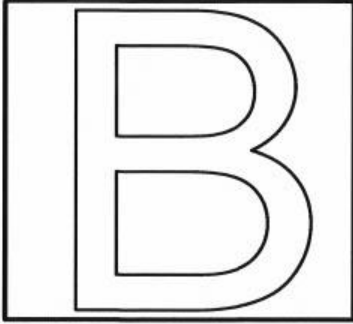

Keep coloring.

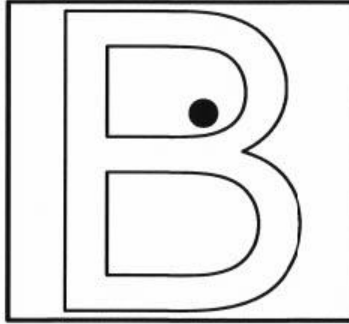

Finished!

*Kickstart My Art! 2016*

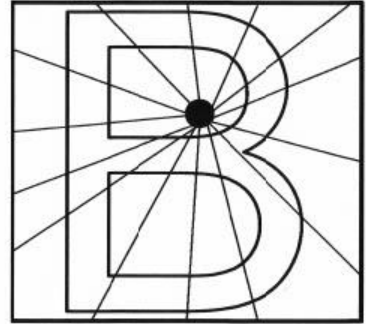

## Design #2 - Op Art Sunburst Letter

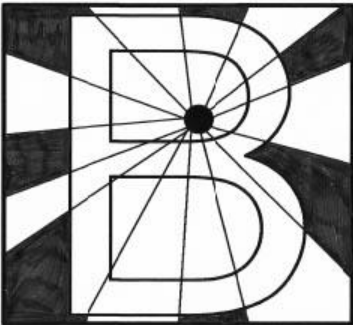

Draw a block letter inside the box.

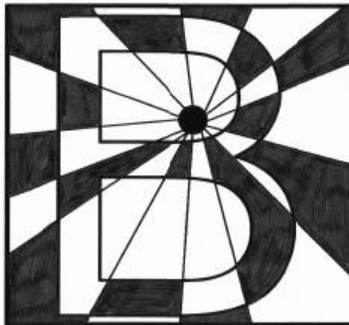

Draw a dot somewhere outside of the letter.

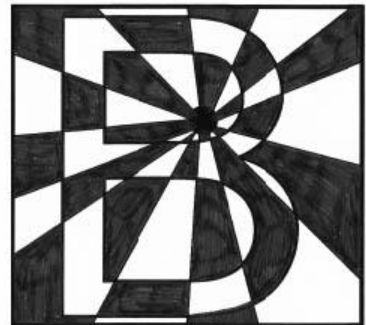

Draw an even number of lines from the center of the dot to the edge of the box.

Color every other space around the outside of the letter.

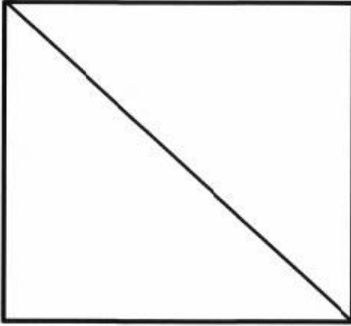

Color every other space on the actual letter itself. Remember that black sections should never be adjacent to each other and white sections should never be adjacent to each other.

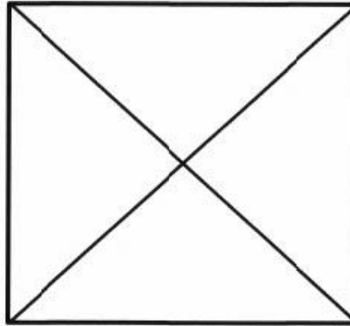

Keep coloring until you are finished.

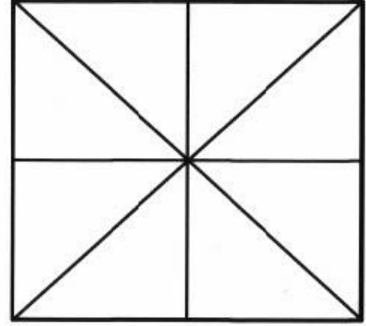

## Design #3 - Op Art Tubes

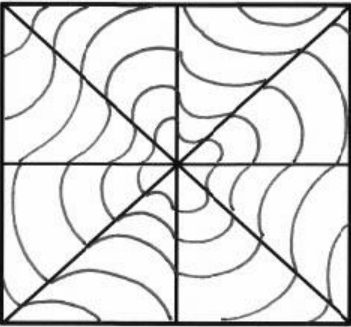

Draw a line going from the upper left corner of your box to the lower right. Use a ruler.

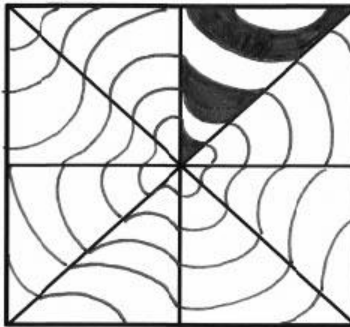

Draw another line from the upper right corner to the lower left.

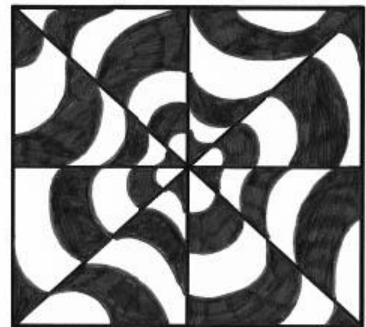

Draw two more lines - one going from top to bottom and the other going straight across the middle of the box.

Draw curved lines inside of each section as shown. Alternate between drawing the curves outward and drawing the curves inward.

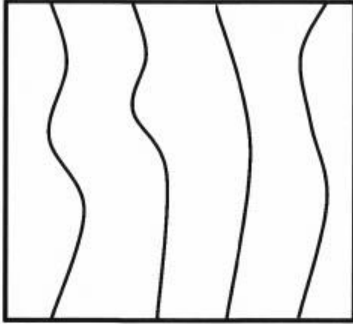

Begin coloring.

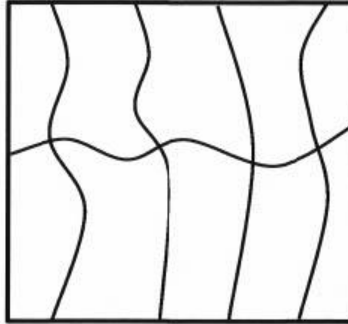

Finished!

*Kickstart My Art! 2016*

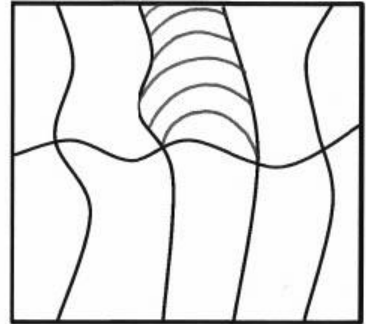

## Design #4 - Op Art Blobs

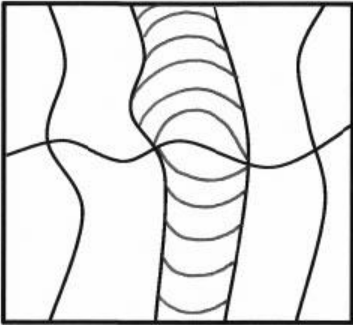

Draw four vertical wavy lines.

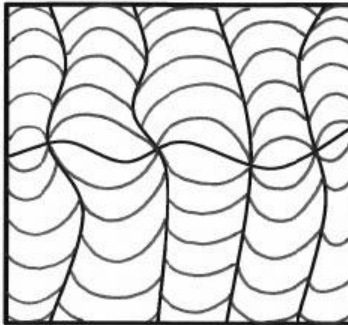

Draw one horizontal wavy line.

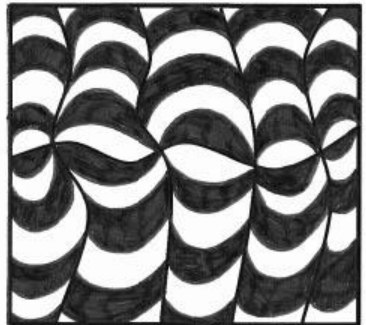

Draw curved lines in each section. Areas ABOVE the horizontal line should curve UPWARD.

Continue to draw curved lines. Areas BELOW the horizontal line should curve DOWNWARD.

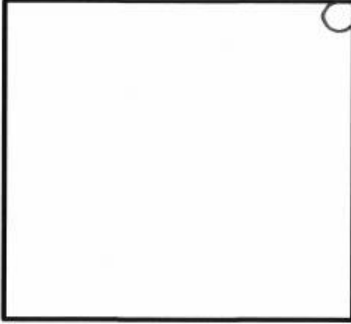

Finish adding lines.

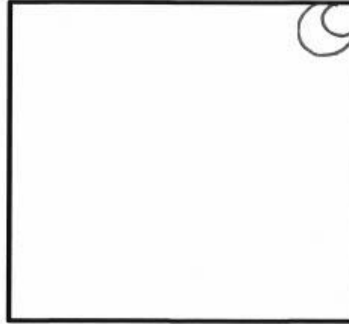

Add color!

*Kickstart My Art! 2016*

## Design #5 - Op Art Bubble Swirls

Draw a small bubble in the upper right corner of your box.

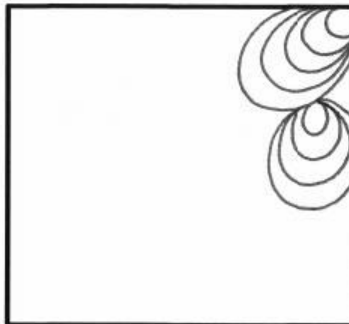

Draw another bubble coming off of the first one.

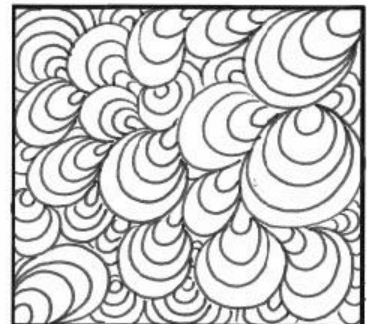

Add 2 or 3 more bubbles and then stop.

Draw a new bubble off of your first set.

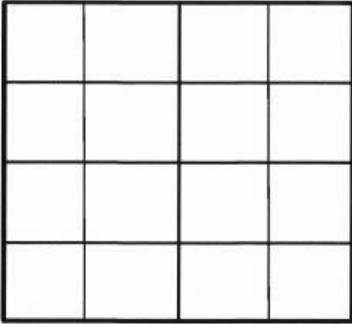

Add a few more bubbles to the new bubble that you just started and then stop.

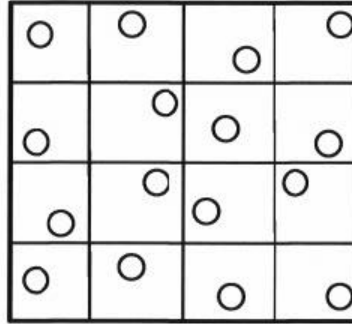

Repeat this process until your entire paper is filled.

*Kickstart My Art! 2016*

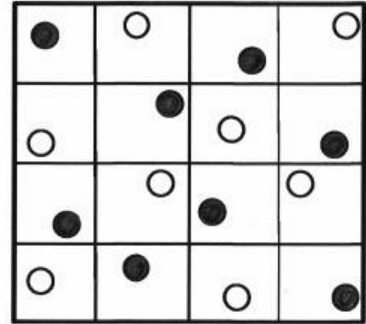

## Design #6 - Op Art Moving Targets

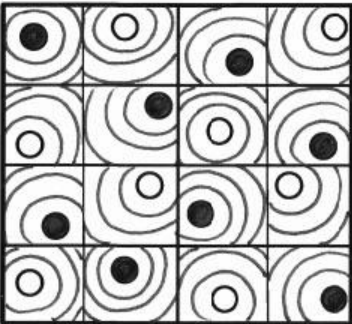

Divide the box into 16 sections.

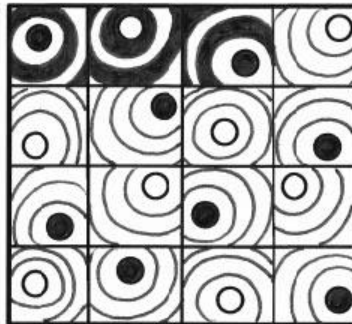

Draw a circle inside of each section.  
Change the position of the circle each time.

Color in every OTHER circle.

Draw three more circles around each circle inside the box. Skip the lines when they run into the side of the box.

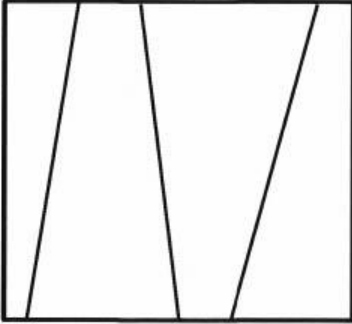

Begin coloring in the outer circles. Leave every other section white.

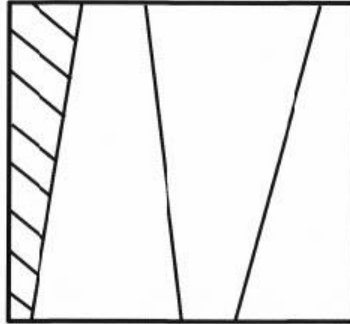

Keep coloring until you are finished.

*Kickstart My Art! 2016*

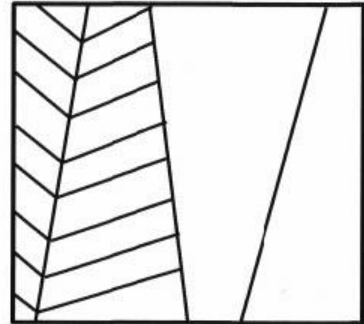

## Design #7 - Bent Paper

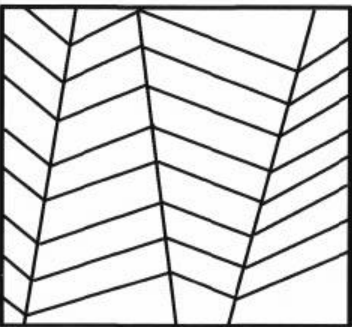

Draw 3 lines going from the top of your box to the bottom. Vary the angle of each line.

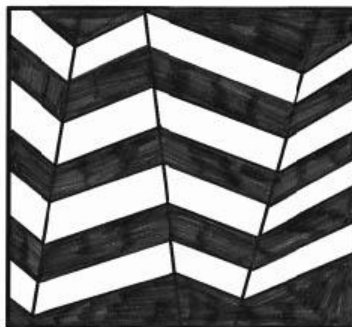

Draw a set of lines in the first section. The lines should be drawn ON AN ANGLE AND PARALLEL to each other.

Now draw a set of parallel lines in the next section. They should meet up with the lines in the first section, but should be drawn on a different angle.

Draw another set of parallel lines in both of the remaining sections. Make sure you change the angle of the lines as you move from one section to the other.

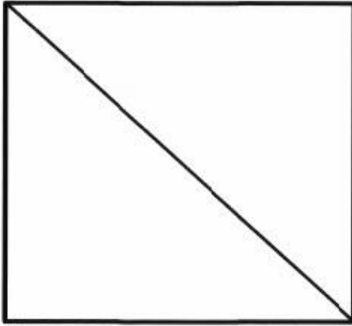

Now color it! You can color in the lines going straight ACROSS the "bent paper" design pattern...

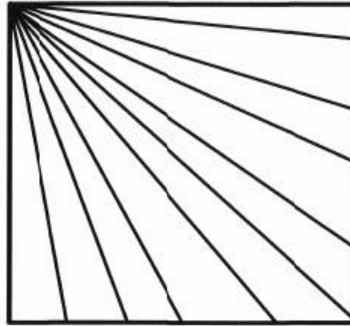

OR you can color it in a checkerboard pattern!

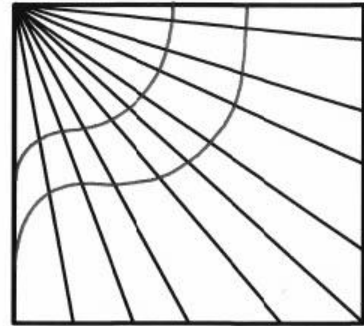

## Design #8 - Wavy Spectrum

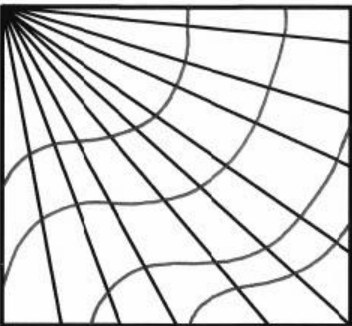

Draw a straight line going from the upper left corner of your box to the lower right corner.

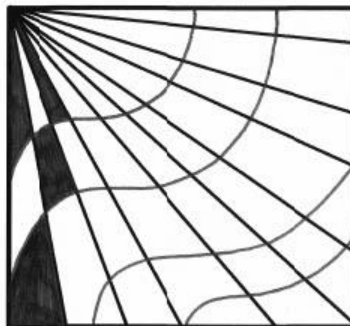

Draw 4 more straight lines on either side of the original, starting in the top left corner of the box for each new line that you draw.

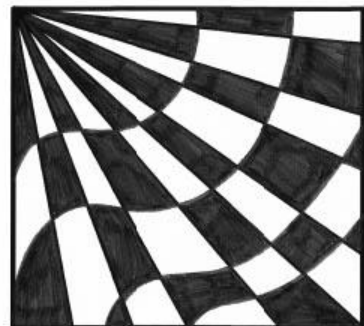

Starting along the LEFT SIDE of the box, draw two curved lines up towards the TOP of the box. The curves should be parallel to each other.

Starting at the BOTTOM of the box, draw two more curved parallel lines. This time they should END along the RIGHT SIDE of the box.

Begin coloring. Remember that black sections should never be adjacent to each other, and white sections should never be adjacent to each other.

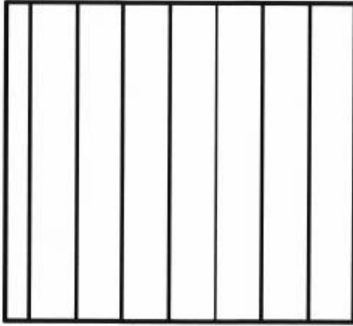

Finished!

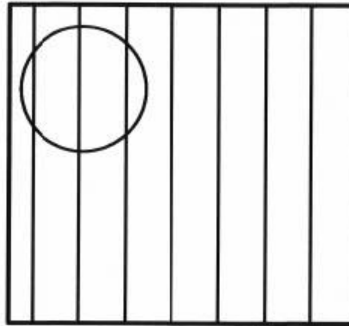

*Kickstart My Art! 2016*

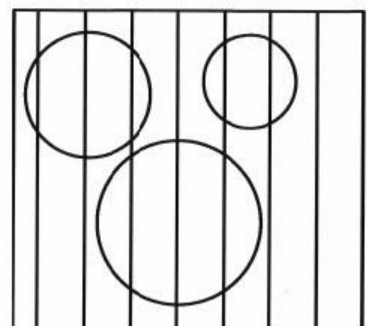

## Design #9 - Floating Circles

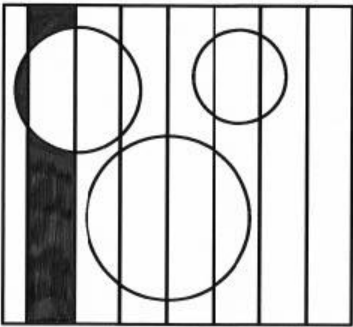

Draw a bunch of straight, parallel lines inside of the box. Use a ruler.

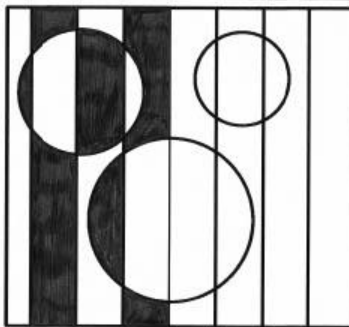

Draw a circle inside of the box.

Draw two more circles.

Begin coloring. Remember that black sections should never be adjacent to each other, and white sections should never be adjacent to each other.

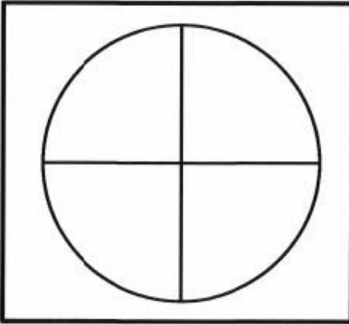

Keep coloring.

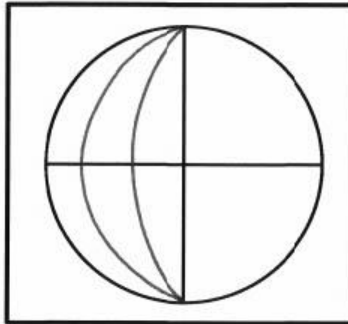

Finished!

*Kickstart My Art! 2016*

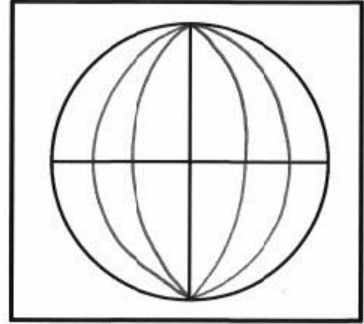

## Design #10 - Floating Globe

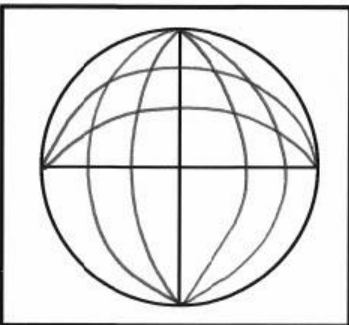

Draw a large circle with a "+" sign in it.

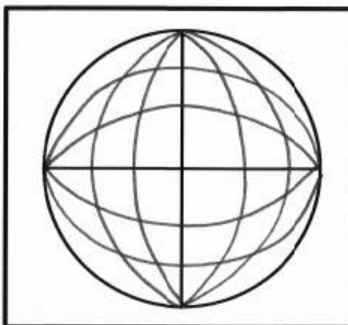

Draw two curved lines to the LEFT of the vertical line. The lines should curve outward towards the LEFT curve of the circle.

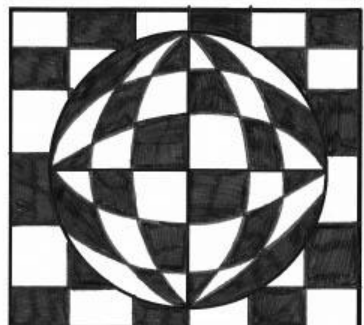

Draw two curved lines to the RIGHT of the vertical line. The lines should curve outward towards the RIGHT curve of the circle.

Draw two curved lines ABOVE the horizontal line. The lines should curve outward towards the TOP curve of the circle.

Draw two curved lines BELOW the horizontal line. The lines should curve outward towards the BOTTOM curve of the circle.

Add a checkerboard background and begin coloring. Remember that black sections should never be adjacent to each other, and white sections should never be adjacent to each other.
